Non-swimmers must be directly supervised by their caregiver who must remain within arms' reach and able to render immediate assistance.

### Admittance Policy

The admittance policy addresses age and swimming ability to determine whether individuals may be admitted to the aquatic facility and whether they require accompaniment.

Children 6 years of age or younger must be accompanied\* by parent, guardian or designate who is at least 14 years of age and is responsible for their direct supervision and must be within arms' reach at all times.

Children 7 to 9 years of age must pass a facility swim test to be admitted without a caregiver (caregiver must remain in pool enclosure until child passes facility swim test)

Children 7 to 9 years of age who cannot pass the facility swim test must remain in the shallow end and be accompanied\* by a parent, guardian or designate who is at least 14 years of age and is responsible for their direct supervision.

Children 10 years of age or older may enter the shallow end of the pool unaccompanied. A facility swim test must be successfully completed to swim in the deep end.

\***Accompanied:** must be accompanied by a parent, guardian or designate (caregiver) who is at least 14 years of age and is responsible for their direct supervision. Caregiver must be in bathing attire and within arms' reach of their child(ren) at all times, both in and out of the water. A caregiver must also be capable of swimming in the deep area of any pool in order to access this area of the pool. Children who cannot pass the facility swim test must remain in the shallow end of the pool directly supervised by their caregiver.
